Tuesday

Post#6 (1/4)

Commencement of field assessment of waste processing facilities in Phase III of SS2023 starting from 15th December 2022 onwards

13th December 2022

Tuesday

Post#6 (2/4)

Points to be noted

- Field Assessments of Processing facilities in Ph III of SS2023 shall commence from **15th December** onwards.
- ULBs shall be given prior intimation before assessments in their city through email, respective state nodal officers shall also be informed.
- Questionnaire for the field assessments shall be based on the documentation templates shared with the ULBs, hence ULBs are requested to be prepared with necessary evidence accordingly.

Post#6 (3/4)

Evidence required during assessment of processing facilities

- The following documents shall be checked in the waste processing facilities to be visited
 - Collection/Processing/Treatment Logbooks for **August and September**
 - Electricity Bills for **August and September**.
 - Declaration or any valid document showing the Design Capacity of the plants. Please note that if a plant is used on a cluster basis by multiple ULBs then separate mentions of the allocated capacities of each ULB should be mentioned.
 - Sale receipts/Sale register of finished products for **August and September** or If the product is self-utilized by the ULB then a declaration stating the same should be made available.
 - Test Reports/Quality Test certificate (In applicable processing facilities).

Logbooks and Electricity bills for current months may also be asked as and when required.

All mentioned documents are compulsory for a plant to pass the assessment.
